

SOME OPTIONAL PROCEDURES TO CONSIDER FOR YOUR PET WHEN UNDERGOING ANESTHESIA

Your pet is scheduled for a procedure requiring sedation / anaesthesia. There are several optional services that can be performed at this same time, this can save you future expense, or **be done for less cost today since the pet is already sedated for the procedure scheduled.** We would encourage you to review this list and ask for more information about any service you feel could benefit your pet.

- [] **TEETH CLEANING & POLISHING.** Keeping your pet's teeth clean can add 2 years to its life. Dirty teeth can be a major source of kidney and heart infections. Dental tartar is also a major cause of pet bad odors. Just as in humans, the "real" problem lies below the gum line where it cannot be seen. It is rare for humans now to lose teeth because of the major emphasis on preventive dental care. The same can be true for pets. While already sedated the fees can average \$25.00 to \$100.00 depending on how severe the problem.
- [] **MICROCHIP IDENTIFICATION.** Prepare for disaster. Very few lost pets find their way home without permanent identification. We can implant a MICROCHIP while the pet is sedated for \$35.00.
- [] **WART & BLEMISH REMOVAL.** Now is the time to have skin abnormalities removed at the lowest cost to you. We will be happy to quote you a discounted fee for your specific pet.
- [] **DEW CLAW REMOVAL.** If the dew claws on your dog's front or rear paws seem to easily get caught on things, then they could easily rip off — which would be very painful for the dog. While under sedation \$25.00 per dew claw.
- [] **Spay or Neuter** (if not the main surgery already being done) While under sedation 50% discount of regular price.
- [] While under sedation; **Nail Trim \$10.00, Nail Grinding \$15.00 and Nail Cautery \$50 to 75.00.** Some animals are very sensitive with nail trims and the nails can get overgrown and become dangerous for the pet. We have advanced methods that can help with these problems. The fees can depend on how severe the nails are, but the fee will be less while already under sedation.
